Journal of Wind Engineering and Industrial Aerodynamics

Contents Volume 26 (1987)

Vol. 26 No. 1

Flow interference between three equispaced cylinders when subjected to a cross flow
A.T. Sayers (Rondebosch, South Africa) 1
The three-dimensional flow around railway trains
J.M. Copley (Cambridge, Gt. Britain) 21
Prediction of wind velocity fluctuations from upstream data
T.A. Reinhold (Raleigh, NC, U.S.A.) and D.J. Halcrow (Hamilton, Ont., Canada) 53
Design pressure distribution on circular silos with conical roofs
I.J. Sabransky (Mount Waverley, Vic., Australia) and W.H. Melbourne (Melbourne, Vic., Australia) 65
Fluctuating forces acting on two square prisms in a tandem arrangement
H. Sakamoto, H. Haniu and Y. Obata (Kitami, Japan) 85
Extreme wind speeds for various return periods during rainfall
S. Murakami, Y. Iwasa, Y. Morikawa and N. Chino (Tokyo, Japan) 105
Announcement 127

Vol. 26 No. 2

Coupled vibrations of rectangular buildings subjected to normally-incident random wind loads
E. Safak (Menlo Park, CA, U.S.A.) and D.A. Foutch (Urbana, IL, U.S.A.) 129
A technique for investigating road vehicle wakes using a pair of split film probes
W.M.S. Bradbury (London, Gt. Britain) 149
Vortex shedding from bluff cylinders in strongly sheared turbulent streams
S. Tavoularis, H. Stapountzis and U. Karnik (Ottawa, Ont., Canada) 165
The accuracy of mountain-top winds estimated from free air data
S.J. Reid (Wellington, New Zealand) 179
Experiments on the deflection and buckling behavior of ring-stiffened cylindrical shells under wind pressure
K. Uchiyama, Y. Uematsu and T. Orimo (Sendai, Japan) 195
The development of a portable pressure source for the static and dynamic calibration of pressure transducers
J.L. Waldeck (Pretoria, South Africa) 213
Response of the Allied Bank Plaza tower during Hurricane Alicia (1983)
M.D. Powell (Miami, FL, U.S.A.) and P.N. Georgiou (London, Ont., Canada) 231
Some effects of finite solidity on the aerodynamics of horizontal-axis wind turbines
D.H. Wood (Newcastle, N.S.W., Australia) 255
Effects of wall curvature on the performance of transition ducts
E.I. Dekam and J.R. Calvert (Southampton, Gt. Britain) 275
Discussion
Comments on "Steady, axisymmetric airflow with swirl in a tube having a change in cross-section" by M. Abdulhadi
D.H. Wood (Newcastle, N.S.W., Australia) 279

Reply
Reply to the comments of Dr. D.H. Wood on the manuscript "Steady, Axisymmetric airflow with swirl in a tube having a change in cross-section" by M. Abdulhadi
M. Abdulhadi (Irbid, Jordan) 281
Forthcoming Events 285

Vol. 26 No 3

On predicting the performance under wind of full bridges from section model wind tunnel results
H. Tanaka and H. Yamada (Ottawa, Ont., Canada) 289
A free vortex simulation method for the straight bladed vertical axis wind turbine
D. Vandenberghe and E. Dick (Ghent, Belgium) 307
Wind-tunnel study of effects of geometry modification on aerodynamics of a cable-stayed bridge deck
B. Bienkiewicz (Fort Collins, CO, U.S.A.) 325
Wind-tunnel study of aerodynamic stability and response of a cable-stayed bridge deck
B. Bienkiewicz, J.E. Cermak and J.A. Peterka (Fort Collins, CO, U.S.A.) 341
Freestream turbulence and wind tunnel blockage effects on streamwise surface pressures
P.J. Saathoff and W.H. Melbourne (Clayton, Vic., Australia) 353
Extreme wind climate of the United Kingdom
N.J. Cook (Watford, Gt. Britain) and M.J. Prior (Bracknell, Gt. Britain) 371
A semi-Lagrangian formulation for diffusion from ground level sources: stable and unstable boundary layers
S. Hassid (Haifa, Israel) 391
Item of interest 403
Announcement 404
